VOL. 254

NEW HAVEN, CONNECTICUT

1956

CONTENTS TO VOLUME 254

NUMBER 1

Granite Again ..... *R. Perrin* 1

Absolute Ages of the Archaean Orogenic Cycles of India
U. Aswathanarayana 19

A Study of Chalcedony ..... *Chester R. Pelto* 32

Correlation of Chemical Composition and Physical Properties of Dolomite ..... *E-an Zen* 51

DISCUSSION

Table Mountains and "Tuyas" ..... *R. W. van Bemmelen and M. G. Rutten* 61

Comments ..... *W. H. Mathews* 62

Publications Recently Received 63

NUMBER 2

The Unit Cells of Calcite ..... *Horace Winchell* 65

Interpretation of Fabrics of Experimentally Deformed Sands
Iris Y. Borg and John C. Maxwell 71

Wisconsin Drifts in the Elmira Region, New York, and Their Possible Equivalents in New England ..... *Charles S. Denny* 82

Late Pleistocene Features of Cheboygan and Emmett Counties, Michigan
Stephen H. Spurr and James H. Zumberge 96

Some Rocks of the Central St. Elias Mountains, Yukon Territory, Canada ..... *Robert P. Sharp and George P. Rigsby* 110

The Unusual Bending of Some Marble Headstones
Harald Drewes, E. T. Ruppel, and F. G. Lesure 123

REVIEW

Ordovician Cephalopod Fauna of Baffin Island; by A. K. Miller, Walter Youngquist, and Charles Collinson ..... *G. Winston Sinclair* 126

NUMBER 3

The System Na_2O—Al_2O_3—SiO_2 .....*J. F. Schairer and N. L. Bowen* 129

REVIEWS

The Comets and Their Origin; by R. L. Lyttleton .....*A. J. J. van Woerkom* 196

Relativity for the Layman; by James A. Coleman .....*Adrian Docken* 197

Applied Geophysics in the Search for Minerals, 4th ed.; by A. S. Eve and D. A. Keys .....*James T. Wilson* 197

Isotope Geology; by Kalervo Rankama .....*Hans E. Suess* 198

Geology of the Chicago Region; by J. Harlen Bretz .....*Richard Foster Flint* 199

Geology in Engineering; by John R. Schultz and Arthur B. Cleaves ....*D. R. Crandell* 199

Publications Recently Received 200

NUMBER 4

The Serpentinite Mass in Glen Urquhart, Inverness-shire, Scotland
G. H. Francis 201

Concentration of Brines and Deposition of Salts from Sea Water under Frigid Conditions .....*Thomas G. Thompson and Kurt H. Nelson* 227

Experimental Data on the P_{CO_2}-T Curve for the Reaction: Calcite + Quartz ⇄ Wollastonite + Carbon Dioxide
R. I. Harker and O. F. Tuttle 239

X-ray Diffraction Study of Inorganic Structural Units in Fossil Wood
G. B. Mitra and J. Sen 257

COMMUNICATION

The Unit Cells of Calcite .....*Horace Winchell* 260

REVIEWS

Theoretical Structural Metallurgy, 2d ed.; by A. H. Cottrell .....*W. D. Robertson* 260

Semaine d'Étude sur le Problème des Microseismes .....*Wayne J. Costley* 262

Geology of Olympic National Park; by Wilbert R. Danner .....*Richard Foster Flint* 262

Géologie des barrages et des aménagements hydrauliques; by M. Gignoux and R. Barbier .....*Clifford A. Kaye* 263

Publications Recently Received 264

NUMBER 5

New Radiocarbon Dates and late-Pleistocene Stratigraphy
Richard Foster Flint 265

The Sedimentary Origin and Stratigraphic Equivalence of the So-called Cranberry and Henderson Granites in Western North Carolina
F. Donald Eckelmann and J. Laurence Kulp 288

Use of Statistical Methods to Detect Radioactivity Change due to Weathering of a Granite .....*W. L. Smith and F. J. Flanagan* 316

REVIEWS

Astrophysics; by Lawrence H. Aller. Vol. 1, The Atmospheres of the Sun and Stars; Vol. 2, Nuclear Transformations, Stellar Interiors, and Nebulae ....*Rupert Wildt* 325

Petrographic Mineralogy; by Ernest E. Wahlstrom .....*Philip Orville* 326

Publications Recently Received 327

NUMBER 6

The Granites of Trancoso (Portugal): A Study in Microclinization
L. J. G. Schermerhorn 329

A Recent Volcanic Mudflow of Exceptional Dimensions from Mt. Rainier, Washington ..... *D. R. Crandell and H. H. Waldron* 349

The Jurassic Reefs on the Yonne (Southeastern Paris Basin)
M. G. Rutten and J. Jansonius 363

Applications of Cation-Exchange Reactions to the Beidellite of the Putnam Silt Loam Soil ..... *R. M. Garrels and C.L. Christ* 372

Shoreline Nips in Tuff at Matsushima, Japan
K. O. Emery and Helen L. Foster 380

REVIEWS

Quantitative Spectrochemical Analysis of Silicates; by L. H. Ahrens
Claude L. Waring 386

The Principles of Chemical Weathering; by W. D. Keller ..... *Kurt Servos* 386

Structure Contour Map of the Montana Plains; by C. E. Dobbin and C. E. Erdman
Chester R. Longwell 387

The Geology of the Cuyuna District, Minnesota; by F. F. Grout and J. F. Wolff, Sr.
Frank G. Lesure 387

Notes en rapport avec l'hydrogéologie des roches calcareuses; by Ivan de Raditzky d'Ostrowick ..... *Stanley N. Davis* 388

Prehistory and Pleistocene Geology in Cyrenaican Libya; by C. B. M. McBurney and R. W. Hey ..... *Richard Foster Flint* 389

The Life in the Sea; by Ralph Buchsbaum ..... *Sarah B. Wheatland* 390

Publications Recently Received 391

NUMBER 7

The Metamorphic History of the Spruce Pine District
J. Laurence Kulp and Arie Poldervaart 393

Occurrence of Uranium in Seth-la-kai Diatreme, Ropi Buttes, Arizona
J. David Lowell 404

The Formation of Gore Mountain Garnet and Hornblende at High Temperature and Pressure ..... *Robert H. Wentorf, Jr.* 413

The Isotopic Variation of Common Lead in Galena from the Front Range and Its Geological Significance
George Phair and Henry Mela, Jr. 420

Geographic Names for Members of the Brule Formation of the Big Badlands of South Dakota ..... *James D. Bump* 429

DISCUSSION

The Magnetic Properties and Differentiation of Dolerite Sills—A Critical Discussion
Frederick Walker 433

Discussion ..... *J. C. Jaeger and Germaine Joplin* 443

Discussion ..... *H. H. Hess* 446

REVIEWS

Reflections of a Physicist, 2d ed.; by P. W. Bridgman ..... *R. Mould* 452

Structural Geology for Petroleum Geologists; by William L. Russell
Donald H. Kupfer 452

New Zealand Geomorphology; by C. A. Cotton ..... *Richard Foster Flint* 454

Beyond the Hundredth Meridian—John Wesley Powell and the Second Opening of the West; by Wallace Stegner ..... *Sherwood D. Tuttle*
Harry H. Crosby 454

Publications Recently Received 455

NUMBER 8

Comments on Stratigraphic Procedure and Terminology .....*W. J. Arkell* 457

The Lower Limit of Stability of Akermanite ($Ca_2MgSi_2O_7$)
R. I. Harker and O. F. Tuttle 468

On the Emplacement of Granites .....*Vladi Marmo* 479

Cavitation as a Geological Agent .....*Hubert L. Barnes* 493

DISCUSSION

Thermometric and Petrogenetic Significance of Titaniferous Magnetite—Discussion
Knut Heier 506

Reply .....*A. F. Buddington* 511

REVIEWS

Fundamental Formulas of Physics; Donald H. Menzel, editor .....*Henry Margenau* 516

Nuclear Geology; Henry Faul, editor .....*William H. Pinson, Jr.* 516

Atlas of Paleogeographic Maps of North America; by Charles Schuchert
W. H. Twenhofel 518

Stratigraphic Geology; by Maurice Gignoux, translated by Gwendolyn G. Woodford
Joseph T. Gregory 519

Publications Recently Received 519

NUMBER 9

Zircon in Rocks. 2. Igneous Rocks .....*Arie Poldervaart* 521

Rb/Sr Age, Elemental and Isotopic Abundance Studies of Stony Meteorites .....*Leonard F. Herzog and William F. Pinson, Jr.* 555

The Brucite-Periclase Equilibrium .....*George C. Kennedy* 567

Relative Ages of Eastern Massachusetts Granites by Total Lead Ratios in Zircon .....*G. R. Webber, P. M. Hurley, and H. W. Fairbairn* 574

REVIEWS

Science and the Human Imagination; by Mary B. Hesse .....*Adrian Docken* 584

Les Lacunes des Cristaux et leurs Inclusions Fluides; by G. Deicha ....*John Rodgers* 584

NUMBER 10

The Strain of Rock in Mountain-building Processes .....*L. U. de Sitter* 585

The Sebecosuchia: Cosmopolitan Crocodilians? .....*Wann Langston, Jr.* 605

How Old is Old Faithful Geyser? .....*George D. Marler* 615

Differentiation and Assimilation in the Logan Sills Lake Superior District, Ontario .....*R. G. Blackadar* 623

REVIEW

L'Evolution de la Lithosphère, I. Pétrogénèse; by Henri Termier and Genevieve Termier .....*A. F. Buddington* 646

Publications Recently Received 648

NUMBER 11

Sedimentation Phenomena in Kulm and Flözleeres Graywackes, Sauerland and Oberharz, Germany.....*Ph. H. Kuenen and J. E. Sanders* 649

Stratigraphic Relationships of the Metamorphic Rocks in Southeastern New York .....*John James Prucha* 672

Devonian Reefs from Belgium: Relation Between Geosynclinal Subsidence and Hinterland Erosion .....*M. G. Rutten* 685

The Role of Creep and Rainwash on the Retreat of Badland Slopes *Stanley A. Schumm* 693

The System Mg_2SiO_4—Mg_2GeO_4 .....*A. E. Ringwood* 707

Publications Recently Received 712

NUMBER 12

Quartz-Coesite Stability Relations at High Temperatures and Pressures
Gordon J. F. MacDonald 713

A Simple Apparatus for High Pressures and Temperatures
D. T. Griggs and G. C. Kennedy 722

Survival of Primitive Notoungulates and Condylarths into the Miocene of Columbia ..... *Malcolm C. McKenna* 736

Argon-Potassium Determination of the Age of the Boulder Bathylith, Montana ..... *Adolph Knopf* 744

Aragonite Speleothems as Indicators of Paleotemperature
George W. Moore 746

Thermal Conductivity in the Depths of the Earth ..... *F. W. Preston* 754

DISCUSSION

Concentration of Brines and Deposition of Salts from Sea Water Under Frigid Conditions: Discussion ..... *George W. Bain* 758

REVIEWS

Niels Bohr and the Development of Physics; edited by W. Pauli, L. Rosenfeld, and V. Weiskopf ..... *Henry Margenau* 761

Transactions of the International Union; P. Th. Oosterhoff, editor ..... *Harlan J. Smith* 761

Les Dislocations et la Croissance des Cristaux; by W. Dekeyser and S. Amelinckx
Horace Winchell 762

Crystal Growth and Dislocations; by A. R. Verma ..... *Horace Winchell* 762

Arctic Research; Diana Rowley, editor ..... *Donald G. MacVicar* 763

Vocabulaire Franco-Allemand de Géomorphologie; by Henri Baulig
Richard Foster Flint 764

INDEX TO VOLUME 254 765

CONTENTS, VOLUME 254

INDEX TO VOLUME 254

A

Age, Rb/Sr, studies of stony meteorites, L. F. Herzog and Pinson, W. F., Jr., 555.

Boulder bathylith, argon-potassium determination, Adolph Knopf, 744.

Ages, absolute, Archaean orogenic cycles of India, U. Aswathanarayana, 19.

eastern Mass. granites by total lead ratios in zircon, G. R. Webber, P. M. Hurley, and H. W. Fairbairn, 574.

Ahrens, L. H., Quantitative spectrochemical analysis of silicates (Review), 386.

Akermanite, lower limit of stability, R. I. Harker and O. F. Tuttle, 468.

Aller, L. H., Astrophysics. V. 1, The atmospheres of the sun and stars. V. 2, Nuclear transformations, stellar interiors, and nebulae (Review), 325.

Alumina, System Na_2O—Al_2O_3—SiO_2, J. F. Schairer and N. L. Bowen, 129.

Amelinckx, S., 762. See Dekeyser, W.

Apparatus for high pressures and temperatures, D. T. Griggs and G. C. Kennedy, 722.

Aragonite speleothems as indicators of paleotemperature, G. W. Moore, 746.

Archaean orogenic cycles of India, absolute ages, U. Aswathanarayana, 19.

Arctic research, Diana Rowley, editor (Review), 763.

Argon-potassium determination of the age of the Boulder bathylith, Montana, Adolph Knopf, 744.

Arizona, uranium occurrence, Seth-lakai diatreme, Hopi Buttes, J. D. Lowell, 404.

Arkell, W. J., Comments on stratigraphic procedure and terminology, 457.

Astrophysics, v. 1 and 2, L. H. Aller (Review), 325.

Aswathanarayana, U., Absolute ages of the Archaean orogenic cycles of India, 19.
